EDUCATION

Swami Vivekanand Subharti University (DDE)

Master of Computer Applications (MCA) - 67.36

Meerut(U.P)

2016-2018

Swami Vivekanand Subharti University (DDE)

Bachelor of Computer Applications (BCA) - 67.92

Meerut(U.P)

2011-2014

PROFESSIONAL SUMMARY

- **Results-oriented Software Developer** with 3+ years of experience designing, developing, and deploying scalable applications using **C#, .NET Core, MVC, and SQL Server**. Proven expertise in **API development and integration**, code optimization, and debugging to enhance system performance. Skilled in leading project modules, resolving live issues, and delivering reliable, client-focused solutions. Adept at collaborating with cross-functional teams to implement new features, maintain application stability, and ensure smooth operations of business-critical software.

EXPERIENCES

Colorplast — Software Developer

April 2026 – Present

Noida - Sector 65

Currently responsible for managing and enhancing **Copal**, a business-critical in-house application used by employees across the organization to support daily operations.

- Manage and maintain the Copal application to ensure high availability, stability, and smooth business operations.
- Analyze business requirements and develop new features using **C#, .NET**, and **.NET Core** technologies.
- Design, manage, and optimize **MS SQL Server** databases to ensure data integrity and system performance.
- Troubleshoot, diagnose, and resolve application and database-related issues in a timely manner.
- Collaborate with stakeholders and end users to gather requirements and implement process improvements.
- Perform application maintenance, bug fixing, testing, and performance optimization to enhance user experience and system efficiency.
- Support multiple modules within the Copal ecosystem, ensuring seamless integration and functionality across business processes.

Sagar Informatics Pvt. Ltd. — Software Developer

March 2022 – Nov 2025

Noida

- Collaborated with stakeholders to gather, analyze, and translate business requirements into technical solutions.
- Worked closely with QA teams to perform system testing, troubleshoot issues, and incorporate user feedback to improve application quality.
- Provided ongoing application support, maintenance, and feature enhancements to ensure system reliability and performance.
- Conducted comprehensive testing, debugging, and performance optimization to deliver stable and efficient applications.
- Evaluated software prototypes and technical feasibility to support project planning and implementation.
- Integrated and maintained third-party APIs (REST/SOAP) and external libraries to extend application functionality and streamline business processes.

PROJECTS

VICHARE LOGINEXT | *C#, React, SQL, .Net Core*

- Leading a key module of the **VICHARE–LOGINEXT** Logistics Project, including the development and maintenance of an Admin Panel, Customer Portal, and Mobile Application. The system enables customers to book shipments using an integrated Wallet-based payment system. Responsible for designing and developing secure RESTful APIs for the React frontend and mobile applications, along with handling third-party API integrations. Actively involved in live production issue resolution, system optimization, and implementation of new features based on client requirements.

JONES INTERNATIONAL LOGISTICS | *C#, JavaScript, SQL, .Net MVC*

- Worked as a Lead on the **JONES INTERNATIONAL LOGISTICS** project. Responsibilities included freight calculation, bill generation, and automation of daily email notifications to clients containing packet booking details. Actively handled live production issue resolution, ensuring smooth, reliable, and uninterrupted project operations.

TIMETOTIME EXPRESS | *C#, JavaScript, SQL, .Net MVC*

- Worked as Second Lead on the **TIMETOTIME EXPRESS (Logistics)** project. Responsibilities included API integrations, freight calculation, and bill generation. Implemented a Windows Service to track parcel transit locations through API integrations and enabled daily automated email notifications for clients with packet booking details. Successfully handled and resolved live production issues, ensuring smooth project operations.

TECHNICAL SKILLS

- C#, JavaScript, jQuery, AJAX, ASP.NET MVC, .NET Core, MS SQL Server, Visual Studio SQL Server Management Studio (SSMS).
